## SUMMARY

Aspiring Software Engineer and Flutter Developer with a strong interest in Artificial Intelligence, Machine Learning, and modern software development. Currently pursuing a BTech in Computer Science Engineering with hands-on experience building mobile applications using Flutter and Firebase. Passionate about learning new technologies, developing practical solutions, and building clean, user-friendly applications that solve real-world problems.

## EXPERIENCE

**Artificial Intelligence AZURE- Microsoft AICTE.** | June 2025 – July 2026

- Gained practical experience with Microsoft Azure AI services and cloud-based Artificial Intelligence solutions.
- This internship will help me strengthen my skills in Python, Machine Learning, Generative AI, Azure AI services, APIs, and cloud deployment, while gaining valuable industry experience.

**Software Engineer Intern-Decent Web Service LLP.** | Sep, 2026 – Present

- Developed and maintained **dynamic, database-driven web applications** using PHP and MySQL.
- Implemented **CRUD operations, data validation, and dynamic content management** within the CMS.
- Designed and enhanced **admin panel modules** to improve data management and application functionality.
- Worked with **PHP, MySQL, HTML, CSS, and JavaScript** to deliver responsive and user-friendly web solutions.

## PROJECTS

**MedCare\_Plus** | Flutter, Firebase, Gemini 2.5 Flash

- Developed Medcare Plus, a healthcare application using Dart, Flutter, and Firebase with a responsive and user-friendly interface.
- Integrated Gemini 2.5 Flash to provide AI-powered healthcare assistance and intelligent user interactions
- Implemented features including disease information, health monitoring, water tracking, doctor consultation, and medicine reminders.
- Implemented features including disease information, health monitoring, water tracking, doctor consultation, and medicine reminders.

**AI Expense Tracker** | Flutter, Nodejs, Expressjs, MongoDB, Gemini API

- Developed a full-stack AI Expense Tracker with Flutter & Dart for the frontend and Node.js, Express.js & MongoDB for the backend
- Designed a modern and responsive UI with Dashboard, Income, Expenses, Categories, Reports, and Transaction History.
- Developed and integrated REST APIs for secure communication between the Flutter application and backend.
- Used MongoDB to store and manage user profiles, income, expenses, and transaction records efficiently.
- Implemented an AI Advisor to analyze spending patterns and provide personalized financial insights and recommendations.

**Emotion Detection System** | Python, Machine Learning, NLP, CNN

- Developed an Emotion Detection System using Python, Machine Learning, and NLP to identify emotions from user input
- Implemented preprocessing and feature extraction for accurate emotion classification.
- Built a machine learning model to classify emotions such as happiness, sadness, fear, and neutrality.
- Designed an interactive interface to display detected emotions and corresponding results

## TECHNICAL SKILLS

**Languages:** HTML, CSS (Bootstrap, Tailwind CSS), JavaScript ES6, Python, Java, PHP, Flutter

**Skill:** AI & ML NLP, LLM, RAG, Vector Database, Prompt Engineering

**Frameworks & Libraries:** React, Nodejs, Express, Laravel

**Backend & APIs:** REST APIs, JWT Authentication, API Integration

**Cloud & Infrastructure:** Docker, AWS, CI/CD Fundamentals

**Databases:** PostgreSQL, MongoDB, MySQL,

**AI & Data:** Gemini API, OpenAI API, Claude, Time-Series Forecasting Tools: Git, GitHub, Thunder Client, VS Code, Android Studio

**Core:** Data Structures & Algorithms, Object-Oriented Programming, Backend Systems, Frontend System, API Design

### EDUCATION

B.Tech in Computer Science & Engineering — Jamia Hamdard University | Expected 2027 | CGPA: 8.1

12<sup>th</sup> Senior Secondary —Victoria Public Sr Sec School |2021-2022 | Percentage: 76.8%

### ACHIEVEMENT

- Solved 100+ Data Structures and Algorithms problems across coding and competitive programming platforms.
- github: Active Project with clean commit

### Certification

- Snapchat AR
- Hack sphere Copy Code
- Test Completion Certificates Intro to Computers (Spoken Tutorial).
- Participation: India AI quiz by Campus Crew by Unstop
- Volunteering: Student Coordinator at Viksit Bharat Abhyaan
